

KONG-BASE

PORTABLE GROUND STATION

When paired with handheld multispectral devices, the KONG-BASE supports remote control of PTZ pitch and azimuth via physical controller or mobile APP. Real-time image synchronization is available on tablet terminals, enabling accurate acquisition of remote target information in complex environments.

TECHNICAL DATA

Pan&Tilt Motorised Platform	
Range of pitch angle	-30° ~ +30°
Range of azimuth angle	-150° ~ +150°
Position Accuracy	±0.05°
Tablet	
Display Size	10"
Display Resolution	1920×1200
Handle	
Connection With Tablet	Wired USB connector
Tripod	
Max. Height After Unfolding	>1000mm
Backpack	
Dimensions	532mm×432mm×208mm
Cables	
Max.Length	50m

Complete Set	
Weight	18Kg(including backpack)
Power Supply	
Battery Type	Battery Pack
Battery life	10h
